Prescott, March 16th 18

The Funded Debt.

As a matter of much importance to the taxpayers of this county we publish below the result of the mission of Col. C. P. Head and Hon. Hugo Richards, Commissioners, to sell the bonds authorized by the Legislature to raise a fund for the redemption of all outstanding bonds and warrants of Yavapai county.

The bonds bearing eight instead of ten per cent, the rate of the present indebtedness, were sold by Messrs. Head and Richards to Lazard Freres, in San Francisco, at the rate of ninety cents on the dollar. The amount of the bonds sold is \$180,000, which raises a fund of \$162,000 in cash, which will be here in a few days. Mr. Freres and those associated with him in this purchase were already owners of \$74,500 of our county bonds, interest on which, under the terms of this new purchase, was stopped on the 27th of April, the date of the sale. Upon the arrival of the funds in Prescott notice will be given by publication in the papers for all bond and warrant holders to bring in their bonds and warrants for redemption, and interest will be stopped on the same on and after the date of such published notice. All bonds and warrants of Yavapai county with the accumulated interest up to the date of the notice, issued prior to the passage of the law, will then be paid up in presentation to the treasurer, together with as much new script as there may be funds to redeem after paying the old.

Under the new law all warrants drawn by order of the Board of Supervisors of Yavapai county after the date of sale, April 27th, will bear but eight per cent. per annum, instead of ten as heretofore. Thus the county starts out on a cash basis, which ought to materially reduce its running expenses for everything outside of fees and salaries, which remain the same. The reduction of interest from ten to eight per cent on the entire debt is another important item of economy. The paying off of the outstanding indebtedness will put quite a large sum in circulation among the people and everything considered, it does seem as if we were about, with the advent of the A. & P. R. R. and the mining boom, entering upon an era of prosperity such as Central Arizona has never before enjoyed.

The new bonds are payable in ten years with the large accession that may be reasonably expected to the value of our taxable property, will be paid off without being oppressive to the taxpayer by a small levy each year for the purpose.

After this year if values increase, as there is every reason to hope, taxes should be reduced very nearly one half.

Book District.
T. J. [Name] died last evening from a few days' illness at Prescott, and reports a hopeful outlook regarding that locality. Messrs. [Name] and others are prospecting their [Name] property. The Prince and [Name] are taking out rich ore and sending it to the [Name] mill for reduction. Mr. [Name], the efficient Superintendent of these properties, is well pleased with the output, and hopes, ere long, to be able to reduce his ore nearer home, and thus add the expense of packing to his net profits, which is, of itself, a very considerable item. Their weekly shipments of fine bullion already amount to a large sum, and will, in time, rival, if not exceed the yield of the famous Peck itself in its palmiest days.

The Peck property is in a quietest state under the watchful surveillance of Mr. John Wade, waiting for the blighting hand of litigation to relax its withering grasp.

Returning Mr. Butler visited the Tuscumia mill, now in process of erection, and found Jas. Mee and Ed. Gobin with a corps of carpenters and millwrights busy with timber and other material, which are being placed in position. The last of the mill machinery had just arrived and was being unloaded from J. M. Bryan's train, which had been eight days in getting over the Bear Creek hill. The mill-site is at Pine Flat, at the point known as Gus Swain's spring, a mile and a half from the Tuscumia mine, in a beautiful grove of pines. The spring, which is to supply the engine and battery, is a deep cavity in the head of a gulch, the water is clear and cold, and said to be abundant all seasons for the purposes desired. The foundation is excavated, walls, etc., up, and places for boiler, engine, battery pans, roaster, settlers, etc., all prepared. They expect to have the mill up and running in about 25 days from this date. For the present they will erect but one four-stamp battery, but their Corliss engine has sufficient power for eight-stamps and all the additional machinery that will be required. They will probably add another four-stamp battery, extra pans and settlers next season. The mill is on the same plan and projection as the Peck mill. Mr. Mee having erected that structure, is a thorough millwright and millman, and knows what he wants. His associate in this enterprise, Mr. Gobin, is an experienced miner; both are expert judges of ore and mines, and there seems to be very little chance for failure to realize a fortune. Messrs. Buffum and Dills are also interested in the Tuscumia, and regard it as valuable property.

Chief Justice French left last night for Prescott, to which judicial district he was assigned by the last Legislature. The Judge leaves behind him a host of friends and well-wishers, and the reputation he has acquired throughout the Territory for judicial probity and legal acumen will insure him a hearty welcome in the field of his future labors.

In Toad's last Prescott gains. The Judge is leaving his many friends in Southern Arizona, and where he is known, respected and where there are, to greet and welcome him, hundreds of honest hearts.—Ed. Miner.

Chief Justice G. W. French will leave for Prescott tonight. The Judge goes out from amongst us with the respect and confidence of the entire community, who wish him well.—[Citizen]

The Number Seven.

Professor Tristram, the celebrated English astronomer, has recently published in the Contemporary Review, an article on the origin of the seventh day as a day of rest; also one on the division of time into weeks; which he thinks he finds in the observations of shepherd, in the very ancient times of the changes of the moon. However we may agree with his theory or otherwise, it is certain that the scriptures regard the number seven as a full or sacred number. The following are some striking examples of its use in the Bible.

This number is frequently used in the Bible. On the 7th day God ended His work. The 7th month Noah's ark touched the ground, and in 7 days a dove was sent out. Abraham pleaded 7 times for Sodom. Jacob served 7 years for Rachel, mourned 7 days for Joseph, and was pursued a 7 day's journey by Laban.

A plenty of 7 years and a famine of 7 years were foretold in Pharaoh's dream, by 7 fat and 7 lean beasts, and 7 ears of full and 7 ears of blasted corn.

On the 7th day of the 7th month the children of Israel fasted 7 days, and remained 7 days in tents. Every 7 years the land rested; every 7 years all bondmen were free, and the law was read to the people.

In the destruction of Jericho 7 priests bore 7 trumpets 7 days; on the 7th day they surrounded the wall 7 times; and at the end of the 7th round the walls fell.

Solomon was 7 years building the temple, and fasted 7 days at its dedication. In the tabernacle were 7 lamps and the golden candlestick had 7 branches. Naaman washed 7 times in the Jordan.

Job's friends sat with him 7 days and 17 nights, and offered 7 bullocks and 8 rams as an atonement.

In the Revelations we read of 7 churches, 7 candlesticks, 7 stars, 7 trumpets, 7 plagues, 7 thunders, 7 veils and 7 angels.

The Gist of It.
The New York World says the Cabinet is breaking up. The floods lately demoralized business at Chicago. Bismarck favors the maintenance of the gold standard. The English papers are all writing against bimetalism.

Mr. Conkling will not oppose Stanley Matthews' nomination. Postmaster-General James says no guilty man shall escape. Travel through the streets of Council Bluffs is now by water.

Galer declines the office of Third Assistant Postmaster-General. England will send a representative to the monetary conference. The indications are in favor of an early executive session of the Senate.

The Chicago grain market last week was excited with an upward tendency. The transfer of passengers, mail and baggage at Omaha, is by skill and flat boats. The Missouri river is invading the Union Pacific tracks at Omaha and threatens great damage.

The desert has been so dry that it is impossible to travel across it. The Queen has refused that she did not insist upon her purpose to visit Disraeli during his illness.

The United States has used the government for \$1,417,739, alleged to be for carrying the mails. Mr. Conkling will not try to postpone Robertson's nomination. He now feels stronger than ever.

Four companies of the Fourth United States Cavalry at Fort Huachuca have been ordered to the United States. Ten or twelve more persons were arrested at St. Petersburg on the 10th, for nihilism, and a printing press was seized.

WILL IT BE A TEST.
We understand an action has been commenced in the District Court to compel Sheriff Paul to assess property in what is known as Graham county on the ground that the act creating the county is void, and Pima has jurisdiction over the taxable property of so much of the so-called county as was formerly included in Pima. Tom Fitch appears for complainants, and petitioners, and Judge Haynes for the defense. The late Supreme Court which convened at Phenix refused to express an opinion on the legality of the act passed by the Eleventh Legislature, in an action brought before it, by dismissing the case. Will our District Court do more? is a question which is puzzling the minds of our legal Solons. We doubt if any lawyer in Arizona, or any member of our courts, has ever read the law extending the term from forty to sixty days, as the laws of the last Congress have not yet been distributed. The query then arises, how can the court decide upon act when the law governing the same is unknown to it?—Tucson Star.

The Atlantic and Pacific road is being pushed ahead rapidly. It was in operation from Albuquerque to Fort Wingate, Arizona, 154 miles, some three weeks ago, and is now nearly to the point of completion. Grading is completed to the Little Colorado river, 125 miles. The force at work will be increased to 4,000 men by the first of May. By July it is expected to reach Brigham City. The recent successful sale of \$10,000,000 of bonds for the purpose of the road secures the funds to push it on through the wilderness, striking the Grand Colorado at the Needles, where the river will be crossed on a lofty suspension bridge 700 or 800 feet above the water. The line will then be extended to connect with the road coming eastward from San Diego. A company has also been formed to build a connection from Prescott, the capital of Arizona, to the main line, a distance of fifty five miles.—New York Graphic.

Several weeks ago, Miss Ida Burnett, a young lady from Prescott, was induced by a member of the Legislature from Cochise Co., to accept a position as teacher at Hula Springs, in the Huachuca mountains. Having signified her acceptance, she, in company with her mother, went from Prescott to fulfill her duties, but on reaching there found but two children in the district, and the place one of the wildest sections in the Territory. It is a sad blow to this young lady, and her invalid mother, as it took out of their hard earnings about \$200, and all for a wild good chase.—Phenix Gazette, April 30.

Miss Burnett and her aged mother are not the only ones duped by the high toned members and associates of the last legislature.—Ed. Miner.

David Baltz and Mr. Brown, of Oakland, left for Tonto Basin yesterday. The above item is clipped from the Phenix (Berks) Herald of April 29th, the sheet that boasts of its wonderful ability to furnish 70 locals in each issue. Now, if all the locals are equally truthful with the above, then may God have mercy on the miserable sinner. Dave Baltz, we know positively, has resided for 16 years in Arizona. Where the Oakland part comes in we can't see.—[Ed. Miner]

Recruits for Salt Lake.
New York, April 27.—One hundred and ninety-seven Mormon men, women and children were landed today from the steamer Wyoming, enroute to Salt Lake. They are chiefly from Scotland and Wales. One of the aides in charge of the party said: This year the emigration from abroad for Salt Lake will probably reach 10,000. Some of them will go to Ogden and others to Salt Lake City, and again others will go to our colonies in Arizona and Wyoming, where most of them have friends. Our next party will arrive here next month, and will be followed by another in June.

The high bill which stands between the Railroad track and the Depot opposite the new hotel is being cut down by the Railroad Company with a large force of men. The cutting down of this bill will, to a great improvement to that part of the town.—[Tucson Star]

Chief Justice G. W. French will leave for Prescott tonight. The Judge goes out from amongst us with the respect and confidence of the entire community, who wish him well.—[Citizen]

TELEGRAPHIC!

[SPECIAL TO THE MINER]

St. Louis, April 28.—Arrangements have been made by the police to run the street cars to-morrow on all roads. At a meeting of the strikers to-day they bitterly denounced the press for denouncing their cause.

APPOINTMENTS BY THE PRESIDENT.
Washington, April 28.—The President has appointed the following Government Directors of the Union Pacific R. R. for the ensuing year: G. T. Everett, Cleveland, Ohio; R. H. Parker, Racine, Wis.; Chas. B. Prock, Port Huron; Geo. W. First, Omaha; A. Kunitz, New York.

WHAT THE POSTMASTER GENERAL SAYS.
The Postmaster General said to a Western Associated Press reporter to-night that he had nothing to give out about the Star service investigation yet.

THE GREENBACKERS.
Columbus, Ohio, April 28.—The Greenback State Convention will be held June 15th.

A STAGE ROBBER KILLED.
Shasta, Cal., April 29.—A robber was shot by Mr. Smiley, of Trinity county, and died yesterday at Weaverville. His remains were brought to Shasta to-day, and are now lying in the Sheriff's office. He has been identified as the famous John Brown, who robbed the La Port and Oroville stage on the 30th of last November, and stood off Sheriff Sprague and his deputy, who went to arrest him after the robbery.

NEW CASES OF SMALL POX.
San Francisco, April 29.—There were four cases of small pox reported at the health office to-day in addition to one known case from the Alaska.

KILLED BY LIGHTNING.
Louisville, Ky., April 29.—A bolt of lightning struck several boys while playing ball during recess of school, three of them dying in a very few minutes.

STOCKS.
Mexican 10; Union 9; Tiptop 4; Silver King 22.

THE STRIKERS.
San Francisco, May 1.—Yesterday afternoon Chas. A. Foster committed suicide in Oakland. Deceased was a carpenter. He was a Workmen's leader. Domestic troubles are supposed to have been the cause.

New York, May 1.—John W. Mentum, of the large established firm of Grinnell, Mentum & Co., shot himself dead in his private office this morning while suffering from temporary alteration of the mind. He was possessed of a large private fortune, his business affairs were prosperous and his family relations most happy.

London, May 1.—There are now 1,014 cases of small-pox in the London hospital. The epidemic is much on the increase. About ten per cent of the cases have proved fatal, 163 persons having died in the hospital during the past fortnight.

MAY GRADUATES.
The closing of the university year of May, 1891, was duly celebrated by young and old, in this part of Arizona. First came the children of Prescott and vicinity, their teachers, relatives and friends, with a gladness celebration, in the pine woods of West Prescott. The little ones enjoyed themselves very much, and so did the young and old, in this part of Arizona. First came the children of Prescott and vicinity, their teachers, relatives and friends, with a gladness celebration, in the pine woods of West Prescott. The little ones enjoyed themselves very much, and so did the young and old, in this part of Arizona.

The same evening a great many young ladies and gentlemen amused themselves on the boards of City Hall, dancing, chatting and, no doubt, making love to one another. Older people took carriages for Iron Springs, about eight miles west of Prescott, where, thanks to Mr. [Name] and Miss [Name], an excellent entertainment, consisting of dancing, feasting, sight-seeing, etc., was provided for the many guests, who, returning home early next morning, appeared delighted with Iron Springs, its people and their hospitality.

Several weeks ago, Miss Ida Burnett, a young lady from Prescott, was induced by a member of the Legislature from Cochise Co., to accept a position as teacher at Hula Springs, in the Huachuca mountains. Having signified her acceptance, she, in company with her mother, went from Prescott to fulfill her duties, but on reaching there found but two children in the district, and the place one of the wildest sections in the Territory. It is a sad blow to this young lady, and her invalid mother, as it took out of their hard earnings about \$200, and all for a wild good chase.—Phenix Gazette, April 30.

Miss Burnett and her aged mother are not the only ones duped by the high toned members and associates of the last legislature.—Ed. Miner.
